You're Invited to a Free Educational Seminar on Strategies to Minimize the Impact of Water Scarcity

The **New Mexico Desalination Association** is partnering with **Veolia Water Technologies** to present a forum on technologies for brackish groundwater treatment and water reuse that could alleviate the impact of impending drought in New Mexico.

Date: Thursday, May 24
Time: 11:30 am - 4:30 pm
Location: Embassy Suites by Hilton
Albuquerque, New Mexico
Cost: Free to Invited Guests

Key indicators show that much of the state will be struggling with the effects of severe water shortages by 2019. This seminar was developed for stakeholders in industry, communities, and government to learn about strategies to minimize the effects of water scarcity on communities and businesses.

Lunch and coffee break are provided by Veolia.

Actual Feedback from Similar Water Forums

"Good variety of topics"

"Presenters knew their stuff!"

"Very informative!"

"Both technical and practical"

Agenda topics will include:

> Inland Brackish Water Desalination Technology for Challenging Water Chemistries

> Beneficial Reuse of Treated Municipal Effluent

> Oil & Gas Produced Water Treatment for Reuse

> Water Conservation/Reuse in the Power Industry

> Latest Innovations in Water Treatment by Veolia's R&D Center

Registration closes Monday, May 21

"Time very well spent"

"Great mix of technology and case studies"
